# Non-Tuition Fee Report

2025 / 26

# Overview

Ontario universities, through their individual acts of incorporation, have full authority to establish their own fee levels. The Board of Governors approves fees and ensures the appropriate government guidelines and other internal and student governance processes are followed.

This 2025/26 non-tuition fee report outlines the compulsory non-tuition fees, administrative fees for service, and fees charged for ancillary services for Wilfrid Laurier University.

# **Compulsory Non-Tuition Fees**

Compulsory non-tuition fees (referred to as compulsory *ancillary* fees by the Ministry of Colleges and Universities) must be established or amended according to student referendum, existing agreements, and/or according to the Protocol Agreement on Non-Tuition Fees. The Protocol Agreement on Non-Tuition Fees is an agreement with Wilfrid Laurier University (Laurier), the Wilfrid Laurier University Students' Union (WLUSU), and the Graduate Students' Association (GSA). The current Protocol Agreement on Non-Tuition Fees was effective May 1, 2023 and expires April 30, 2026.

Compulsory non-tuition fees are assessed and collected by Laurier on behalf of the appropriate student government and transferred to WLUSU and the GSA for their handling or are administered by Laurier for the designated purpose. Fees are set by the student groups through their own governing approval processes. The student governments review and confirm the fee schedules to ensure that all fees are being reported correctly. Consistent with past practice, fees are assessed to undergraduate and graduate students starting in the fall term and are per term rates unless otherwise stated. Further, part-time undergraduate and graduate students are charged the same fees as full-time students except at pre-established prorated amounts unless stated otherwise.

**Appendix A** shows a detailed listing for the 2025/26 compulsory non-tuition related fees. **Appendix B** shows the 2025/26 compulsory non-tuition related fees sorted by campus.

# Administrative Fees for Service and Fees Charged for Ancillary Services

The University has discretion over the setting of various administrative fees for service and ancillary fees. Financial Resources initiates an annual request to departments for updates to various administrative and ancillary fees applicable to their areas. The updated fees are then reviewed and compiled. As well, some administrative and ancillary fees are

established in consultation with students and ultimately through approval by the Student Affairs Administrative Council.

The governance process relating to review and approval of fees includes several steps. The fee reports are first presented at the Non-Tuition Fee Protocol Committee for information and review. They are presented to Finance, Investments & Property Committee of the Board for recommendation. Finally, they are presented to the Board of Governors for approval. All fees are housed on Laurier's website and accessible to students.

# A) Administrative Fees for Service

Management determines various service, specialty, and miscellaneous administrative fees that are charged based on "fees for service". Most administrative fees are determined by the departments responsible for delivering the service and administering the fees. Examples of such fees are as follows:

• Fees are charged for application, assessment, registration and processing services. Additionally, fees are charged by the University for the administration of tuition fees. These fees include late registration fees and interest charges.

• Athletic memberships for staff and faculty are also offered and are established during collective bargaining. As well, there are several fees charged for other memberships, services and use of recreational and athletic facilities.

The administrative fees are reviewed annually by departments to ensure they cover current costs and may be increased annually by a reasonable inflationary factor. Financial Resources oversees the fee increase process and documentation.

The schedule in **Appendix C** includes the comprehensive listing of the proposed fees for 2025/26.

## B) Fees Charged for Ancillary Services

Fees are charged for various Ancillary Services when those services are accessed by faculty, staff and students or the community at large. This includes fees for parking, residence and meal plans.

Parking fees for staff and faculty are established during collective bargaining. The Parking and Transportation Resources department establishes various other fees for daily, temporary and other types of permits (e.g. contractor and proctor). Furthermore, a number of penalties and fines for parking violations are also established and collected.

Residence fees and meal plans are established by Student Affairs and are reviewed annually to ensure they cover increased costs and are consistent with market rates. The fees proposed are established in consultation with students and ultimately through approval by the Student Affairs Administrative Council. Fees are posted on Laurier's website for each of the ancillary services. The schedule in **Appendix D** includes the comprehensive listing of the proposed fees for 2025/26.
